

Addalyn Elise Ployhar September 23rd, 2013

Nikki Gummer and Joe Ployhar's beautiful little girl; Addalyn Elise Ployhar was born on 9-23-2013 at only 25 weeks gestation due to her mamma developing preeclampsia at 21 weeks. Her due date was January 5th, 2014.

Weight: 1 lb. 2 oz.

Length: 11 inches

Time: 1:13 pm

As with any preemie she has had her ups and downs battling infections, breathing on her own, oxygen levels and many other life threatening setbacks. She is faced with a hard road in the NICU for the next few months. The family has already been faced with an accumulation of bills that are not fully covered by insurance and she will need special equipment even after they are able to bring her home.

Miss Addalyn has a big brother, Cole who has yet to meet his little sister due to her critical condition. Addalyn has developed ecoli, over inflated lungs, has stopped breathing multiple times, heart problems, lung problems, and several other terrifying setbacks. Nikki and Joe are going through something that no parent should ever have to endure.

Nikki's complication has resulted in long-term medication which is incredibly expensive, not covered by insurance, not available in generic form, and must be taken...thus causing more financial burden.

This event has been created for family, friends, and the community to come together in an attempt to raise money, provide support to the family during this difficult time, to follow Addalyn's progress, and CELEBRATE her miraculous progress.

Along with the upcoming fundraising event, there are other ways to contribute to Miss Addalyn's fight.
