

# BINGO & SILENT AUCTION

## To Benefit Ed Ellis and the 406 Family Aid Foundation

On Jan 1, Ed Ellis suffered from the unexpected rupture of an abdominal aortic aneurysm (AAA). He lost over 4 liters of blood, suffered from sepsis, and eventually had to have his right leg amputated to save his life. After over 30 days in the hospital Ed is now home with his wife Becky, who had to leave her job to care for him at home. With neither of them able to work at this time, and accumulating medical bills they are now facing major financial devastation.

### JOIN THE 406 FAMILY AID FOUNDATION
